VOL. XXX. No. 23.

DIDSBURY, ALBERTA, THURSDAY, JUNE 6, 1935

\$2.00 per year. 5 cents a copy.

## A. B. Claypool Re-nominated

A. B. Claypool, sitting member, was named U.F.A.-Independent candidate for the Didsbury constituency for the forthcoming elections, at the U.F.A. and U.F.W.A. convention in Acme on Tuesday.

Following his nomination, which was unanimously approved, Mr. Claypool addressed the meeting briefly on some of the important legislation passed at the last session of the legislature.

In the organization elections, N. J. McCrimmon was elected president, and Mrs. H. W. Wood vice-president.

Roy McNaughton was elected director-at-large, while other directors named were: William Burs and Mrs. L. B. Hart for Division 1; J. E. Earle and Mrs. A. B. Claypool for Division 2; W. J. Scheidt and Mrs. J. J. Spalding for Division 3; and J. McDougall and Mrs. N. J. McCrimmon for Division 4.

## Two Killed in Auto Accident

Mabel Nelson, 18, of East Coulee was instantly killed Monday night, and William Jones, miner of East Coulee, Drumheller, died Tuesday morning from injuries following an automobile accident near Drumheller Cemetery on Monday evening.

Six others were injured when the car driven by Jones side-swiped an automobile driven by Mrs. C. Lewis of Rosedale. Jones' machine, in which seven persons were riding to a dance, overturned in a ditch.

The honorary degree of "Doctor of Agriculture" will be conferred on Hon. Duncan Marshall, Ontario minister of agriculture, by the Iowa State College of Agriculture, it was announced Monday.

British Premier MacDonald's resignation, and that of his whole cabinet, will be offered to the King on Friday, according to present arrangements.

## Jubilee Celebration Impressive Ceremony

Almost 1,000 schoolchildren, together with town officials, I.O.D.E. and the Canadian Legion, standing at attention to honor the King and Queen in commemoration of the silver jubilee of their reign, made a very impressive sight at the celebration which was held at the school grounds Monday afternoon.

Every school in the district, except one, was represented at the celebration. The children gathered at the C.P.R. grounds.

Jubilee Buttons were distributed and each school lined up in units. As the Didsbury Boys' Band marched by each school unit joined the parade with a precision that was very effective. Units of the I.O.D.E. and Canadian Legion brought up the rear of the parade.

At the school grounds the Salute to the Flag was taken by the Mayor and the units were massed in formation in front of the platform.

Patriotic songs were sung and after a few remarks the Mayor called upon Mr. George Clark, Reeve of Westerdale Municipality, who gave an excellent address on the Royal Family and the traditions of the British Empire.

After the exercises the children were served with ice cream and sports were arranged. The races seemed to be thoroughly enjoyed by the kiddies and every event from the age 5 to the open events found a full quota of entries.

Softball games between the Canadian Legion and the High School Girls, and Rural School Girls and Didsbury School Girls, brought a very happy afternoon to a close.

During the afternoon selections were played by the Band which were much appreciated.

The school teachers and the marshalls are to be complimented on the manner in which they organized the parade, as are the sports committee for their good program, but the most popular committee of the afternoon seemed to be the refreshment committee.

## The Pet Show

The pet show and parade which was given by the girls of the C.G.I.T. on Monday attracted a lot of attention and both town and country children were there with their pets and decorated buggies, bicycles and tricycles.

There were all kinds of pets from babies to rabbits, even the quintuplets being represented.

Shirley Liesemer, with her Pomeranian dog won first prize for the girls' pet, while honors for boys' pets were taken by Harold Wood, with an appealing exhibit of baby rabbits. Prize for best decorated baby carriage with baby was won by Barbara Spence exhibiting the infant daughter of Mr. and Mrs. C. R. Ford. Little Laura McCoy, dressed as a nurse, won the prize for the most original idea with her exhibit in a decorated carriage of five dolls depicting those famous wards of the King, the Dionne quintuplets.

Other prizes awarded were: Betty and Margaret Klinck for best decorated doll carriages; Joyce Cummins and Betty Boorman, best decorated bicycles, and Bobbie Mortimer for best decorated tricycle.

## Will Give Lecture on Wild Life

Mr. Stanley Clarke, game commissioner for Alberta will give a lecture on, "Wild Life in Alberta," in the Didsbury Opera House on Monday, June 10th, under the auspices of the Fish and Game Association. The lecture will be illustrated by moving pictures.

Mr. Clarke is the outstanding authority in Alberta on propagation and preservation of game and has travelled extensively in hunting grounds of the province. His lecture will be of interest to everyone who loves the outdoors and to sportsmen in particular.

Mr. R. T. Rodd, director of fisheries, is expected to be present and will give an outline of the work of his department in propagating fish and stocking the streams and lakes of the province.

The lecture will be free and members of the Fish and Game Association and all others interested are invited to attend.

## Band Reorganizes.

At a public meeting held Wednesday, May 29 in the Public School the Didsbury Boys' Band was reorganized.

The new officers elected were: Conductor, Dr. H. C. Liesemer; President, Mr. C. R. Ford; Vice-President, Mr. W. Wyman; Sec.-Treas., Mr. John Goertz; Business Manager, Mr. Milt Ford; Librarian, Clarence Cunningham; Trustees:

Messrs. J. E. Gooder, E. G. Ranton, A. McNaughton, J. V. Berscht and N. S. Clarke.

In the financial report it was shown that the Band had bought:

Music	\$209.90
Equipment, including drums, chairs, etc.	181.90
Caps	16.00
Trousers	93.09
Advertising, Hallrent	36.62

After the reorganization the Band adopted "The Constitution and By-laws for Bands, as outlined by C. G. Conn."

## Evangelical Church Notes

The message at the morning service, Sunday, will be, "The Agency of the Holy Spirit," and in the evening the sermon subject is to be, "Saved by Faith."

## Transferring Business to Penticton, B.C.

W. J. Hillyard has made arrangements to transfer his business from here to Penticton, B.C. He expects to leave here the latter part of this month.

Mr. Hillyard has been in business here for the past 20 years and has always shown his interest in anything that was for the good of the town.

Both Mr. and Mrs. Hillyard were ardent workers in the United Church and Mrs. Hillyard was an active worker in various ladies organizations. They will be much missed in the community.

We wish them success in their new venture.

## Gets One Year.

In connection with the burglary at Studer's Store on May 13th, W. Edmonds, of no fixed abode, was brought before Magistrate Penttice here Thursday last, charged with being in possession of a pair of shoes taken from the store at the time of the burglary.

A. G. Studer gave evidence identifying the shoes and produced the box which had contained the shoes, both showing corresponding numbers.

Sergt. W. Cawsey, R.C.M.P., gave evidence that defendant was wearing the shoes when arrested in connection with breaking and entering a store at Blackie.

Defendant pleaded not guilty, but refused to make a statement of any kind. He was found guilty and sentenced to one year with hard labor at Lethbridge. He will also have to stand trial for breaking into stores at Blackie and Vulcan.

## Westerdale Council View Roads

The councillors of Westerdale Municipality made their annual inspection of roads on Thursday and Friday.

On Saturday the council met and laid out the road program for the season. Besides doing the necessary repairing and maintaining it is planned to grade about 25 miles of new road.

Work on the road commenced this week and it is thought that with a favorable season it may be possible to grade an additional mileage.

## Mountain View Council Meeting

The regular meeting of the Mountain View Municipal Council was held on Saturday at Olds, with Reeve Flinn in the chair.

A communication was read from the Hail Board, stating that hail insurance will be handled similarly to last year, but that the amounts for which crops can be insured will be \$3.00, \$4.00 and \$5.00 per acre.

Amendments to the Municipal Districts Act and the New Tax Consolidation Act, were discussed, and a bylaw was passed putting the Tax Consolidation Act into effect.

The Act provides that upon the payment of one-fifth of the arrears of taxes the balance may be extended over a period of five years, provided that the current tax be paid each year.

The council decided that the period for supplying gopher poison and paying bounty on crow and magpie eggs be extended until July 1.

A representative of the Salvation Army appeared before the council and asked that a grant be given to support the old people's home and welfare work. A grant of \$200.00 was made.

The secretary reported that two ratepayers had been granted certificates under the Farmers' Arrangements Act.

Seven applications for tax consolidation were approved.

It was reported that the grading outfit had commenced work and it was found that the new machine was working very economically. The crew are at present working from the Rosebud Hill east on the south road.

Several matters of relief were dealt with and routine business occupied the rest of the meeting.

## Baby's Death at Innisfail Unsolved

Death of a newly-born baby found May 17 in a bush west of Innisfail was attributed to neglect and exposure by an unknown person or persons by a coroner's jury held on Friday night.

The baby, which was believed to be two or three days old, was found wrapped in women's clothing and newspaper, by Edwin Songhurst.

"Is that a dray horse you have there?"  
"No it's a brown horse, and stop your baby talk!"

## Extensive Plan Of Beautification On Civic Lines Reflects Thrift And Enterprise Of Communities

Canada has been richly endowed with great natural beauty and, except where man in cities, towns, and villages has turned that loveliness into a semblance of garbage dumps, the land is a vista of endless charm. Just as a man is oft-times judged by his clothes, so is a community appraised by its environment and that environment is at once the responsibility of every member of the community, individually and collectively. The home after all is the starting point for the most effective re-beautification of the spots despoiled of their natural grace, and, where each home is beautified, the fulfilment of a comprehensive scheme of beautification on civic or community lines is made a comparatively easy matter.

This has been amply proved by the success of the More Beautiful Canada campaign sponsored by the Canadian Horticultural Council a few years ago. The idea of beautifying the home surroundings had, in many places, only to be suggested to be acted upon, and now Canada possesses many more beautiful towns, villages and homes, some lowly but all the more lovely in their lowliness. The use of flowers and plants on the porches and walls of a home, in the gardens, and in adjacent spaces is not a matter of mere show. It goes deeper than that. In reality it strikes at the roots of civilization. Beauty represents the supremacy of the higher over the lower, of form over matter. So much so, that if the world were one beautiful garden and every inhabitant interested in it, there would be no more war. Every human being is influenced to a greater extent by his surroundings than is generally realized. Where there is harmony—and the harmony of flowers symbolizes the blending of the higher impulses—there can be no discord.

The story is the oldest one known. Adam was appointed to dress the garden of Eden and to keep it (Gen. 2:15). He did not do so and was sent out of the garden to till the ground. (Gen. 3:23). Children reared to love flowers have their hearts filled with love for beauty and thus have less room in their hearts and minds for the things that hurt and destroy.

Still another point of view. The progressiveness and thrift of a community or municipality are often reflected in its appearance, and, while the Dominion is stressing the importance of the influx of tourists, the best advertising that any community can do is to present a pleasing appearance. In the matter of what are the most suitable flowers and plants for the district, information will gladly be given by the nearest agricultural college, or the Experimental Farm of the Dominion or Provincial Department of Agriculture.

### Encourage Young Artist

#### Paints And Brushes To Be Sent To Apprentice At Northern H.B. Post

A set of artist's paints and brushes will be sent to Stanley C. Knapp, 20-year-old English apprentice in charge of the Hudson's Bay Company post at Clyde River, by trustees of the national gallery of Canada in recognition of his natural talent and inventiveness. Clyde River is 500 miles north of Frobisher Bay, southern Baffin Land, N.W.T.

Last year Knapp presented H. S. Southern, chairman of the board of trustees of the gallery, with an oil painting of the company post at Frobisher Bay, executed by him with brushes made from hair out of his own head, and painted on cardboard with common house paint. The gift was brought down by Major D. L. McKeand, commander of the Canadian government Arctic patrol.

### Federal Appointment

Harvey Dennis Sparling, Portage la Prairie, has been appointed official receiver under the Farmers Creditors' Arrangements Act, for the central judicial district of Manitoba, Finance Minister E. N. Rhodes announced.

### For Grasshopper Control

#### Experiment Made In Distributing Bait By Means Of Aeroplane

Aerial distribution of grasshopper poison bait was demonstrated at Lethbridge recently before a dozen entomologists of the Dominion and northwestern United States.

During a conference of scientists seeking best ways and means of combatting the 'hopper infestation, a biplane with Pilot E. Boffa at the controls, equipped with a "spreader" invented by Terrance Ingolsby of Lethbridge, and several hundred pounds of bait aboard gave a demonstration of rapid spreading of bait which greatly impressed the entomologists.

By means of the overfeed spreader it is possible to spread the bait evenly over large areas very quickly at the rate of about 10 pounds to the acre, which is not possible by the hand method now used.

### Anxious To Have Vote

#### Uneducated Women In Ceylon Learning To Read And Write

Mothers and grandmothers in Ceylon are going to the village schools, struggling to learn to read and write so that they may exercise the right to vote, members of a Montreal woman's club were told by R. C. Bingham.

Five years ago, he said, when Ceylon attained self-government, the women began to take great interest in the affairs of the country. They have the franchise but must be able to read and write their own language. To-day 600,000 are qualified to vote.

### FASHION FANCIES

### QUICKLY FASHIONED

Ellen Worth offers pattern of this adorable model, distinguished by its perfect tailored simplicity. Style No. 807 is designed for sizes 14 to 18 years, 36 to 40-inches bust. Size 16 requires 3 1/2 yards of 39 inch material with 3/4 yards of 35 inch contrasting.

Patterns 20c each. Address mail orders to: Pattern Department, Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

The Spring Fashion Magazine is better than ever. Entirely illustrated in color you will find it a very stimulating fashion edition. There are clothes for cruising and clothes to brighten the lives of stay-at-homes. Many delightful little models for the smaller members of the family. Of course, patterns are obtainable for the designs illustrated. Send for your copy to-day, the price is 20 cents.

### Accumulate Estate

#### Dionne Quintuplets Prosper Financially During Brief Career

An estate valued at \$151,187.29 has been accumulated for the Dionne quintuplets in the period July 26, 1934, to March 31, 1935. This figure was revealed in the surrogate court of the district of Nipissing by H. R. Valin, solicitor for the former guardians of the five little sisters.

Tabulated the estate consists of contracts valued at \$114,750; cash in bank, \$15,728; Dafoe hospital, \$9,112; province of Ontario bond, \$10,000; gifts, \$1,596.

Gifts varying from fire extinguishers to frying pans, were sent to the famous babies during the period in which the now retired guardians held sway. In addition to this the hospital was built and equipped by moneys and donations obtained through the efforts of the guardians.

Contracts which are still due will bring in \$114,750. They include Carnation Company, Ltd., Toronto, \$2,000; Pathe News Incorporated, New York, \$90,000; Gordon V. Thompson Limited, Toronto, \$500; Merrill Publishing Company, Chicago, \$100; N.E.A. Service, Inc., \$3,650; Lehn and Fink Limited, \$1,000; George S. Dingle Limited, Toronto, \$15,000; Alexander Doll Company, New York, \$2,500.

Cash receipts in the period of July 26, 1934, to March 31, 1935, totalled \$30,590. Of this amount, The Toronto Daily Star paid \$1,598 (on a non-profit basis) for still picture rights in the eight-month period. For the privilege of taking moving pictures, Pathe News Incorporated paid \$7,974.

Cash disbursements aggregated \$14,862. These moneys were paid out for medical fees, legal fees, light and power, coal, food supplies, repairs, drilling a well, petty cash, etc. For his services covering the period from the babies' birth until the end of April, Dr. A. R. Dafoe was paid \$2,200.

### Lumber Mills Busy

As a result of a brisk demand for lumber, planing mills in White Court, Alta., did not miss a day during the past winter, running on full time schedule—the first time since 1929. A large amount of lumber is being shipped from there daily.

## Develop Intricate Machine That Is Claimed To Be Able To Solve Numerous Difficult Problems

### Dundonald Was Great Soldier

#### Had Plans To Re-Organize Canada's Militia 30 Years Ago

The Earl of Dundonald, who stirred the whole Canadian nation three decades ago by his energetic plans to reorganize the Canadian militia, died at the age of 82, after a brief illness.

A great soldier, who saw service in Egypt and South Africa before becoming general officer commanding the Canadian Militia in 1902, and years later proved himself a valuable assistant in conduct of Great War operations, Lord Dundonald came of a distinguished Scottish fighting family.

He will be remembered chiefly as the man who led the final advance into Ladysmith. He also rode across the desert with dispatches telling of the death of Gordon of Khartoum. In Canada he will long be known as the military man whose conflicts with politicians stirred the Ottawa, and London Parliaments.

Dundonald came to Canada in 1902 to reorganize the Canadian Militia. After a stormy time and his departure in 1904 when he was greeted enthusiastically by throngs of people in cities en route to Quebec, he wrote: "Persons living in England in the days of a commander-in-chief would have been astonished to hear of such a thing as political interference in a military force, but in Canada in 1904 this interference struck at the roots of all efficiency."

### The Yukon-Alaska Boundary

As an aid in the effective enforcement of customs, immigration, and other regulations, the Dominion government has reserved from sale a strip of land 60 feet wide along the Canadian side of the Yukon-Alaska section of the International Boundary. On the Alaska side of the boundary, the United States government has reserved a strip of the same width through its public lands. The Yukon-Alaska boundary is 749 miles long.

## The SNAPSHOT GUILD

### SUGGESTIONS FOR SPRING PICTURES

"Don't forget the youngsters when you are taking snapshots"

Here's a chance to again get "environment" in your pictures. The young lady pictured above is in an ideal setting to "show off" her suit (and good looks) and at the same time the result is a most attractive snapshot—typical of springtime.

The suit, the girl, or the picture would not be half as attention-compelling if the picture had been taken with the garage door, the dark trunk of a tree or some other unattractive object as a background.

If your background is attractive and will add to the appearance of your picture use a small aperture or diaphragm opening. This will not only increase your depth of focus but bring out sharper details. If you stop down to f.11, or f.16 you will, of course, have to adjust your shutter speed accordingly, depending on the amount of light you have to work by. Don't try to take your pictures at less than 1/25 of a second unless you can place the camera on

something solid for otherwise, unless you know from experience that you can hold your camera steady through 1/15, 1/10 or 1/5 of a second, your picture will be blurred.

Remember, too, that the grown-ups are not the only ones who have new spring clothes. How about the youngsters? Little Jane (above) is surely getting a great thrill out of the new dress.

The season offers countless opportunities for interesting, story-telling snapshots. There is the plant you gave mother, or the beautiful white Easter lilies or the baby chicks received by little Jane from her grandmother; and innumerable other subjects. All you need do is give a little thought to the picture possibilities and at the end of the day you will have a collection of snapshots that you, your friends and family will be proud of and enjoy for years to come.

JOHN VAN GUILDER.

With 75,000 parts and \$60,000, the masterminds of the engineering staff at the University of Pennsylvania have put together a "mechanical brain," an intricate mass of metal that knows all the answers.

The potentialities of the bewildering mass of whirling wheels, shafts, gears, mirrors, disc, ball bearings, et al, is upheld as limitless by its constructors, associates of the Moore School of Electrical Engineering of the U. of P.

Primarily an instrument of peace, the "mechanical brain" becomes a death dealing weapon in wartime, when it can be utilized to compute distances between firing points and targets, the most important detail of every gunner's task.

No longer will the captain on the bridge of a battleship have to be concerned with the speed of the ship, the drift, the velocity of the wind, the rotation of the earth, the strength of the charge, the shape of the shell, the humidity, the temperature of the air—and all else that must now be considered before the firing of a thunderous salvo.

All the above calculating will be done—and more accurately—by the mechanism of the new machine.

Prof. Charles DeV. Fawcett, of the Moore school, explained that if a battleship's broadside now strikes its target twice out of ten attempts, with the assistance of the "Mechanical brains" it will hit the target at least five times, and very likely more often.

Both the army and navy have kept in close contact with the construction of the machine, built with CWA funds. It is the largest instrument of its kind in the world today.

"Although I hesitate to forecast the future," Fawcett said, "I am convinced this machine has extraordinary possibilities for good. It will be of use in the commonest ways."

"By solving the mathematical problems that are the basis of so much scientific development, it will be helpful among other things, in radio, television, hydraulics, aerodynamics and the generation of steam. It will be immensely valuable in the automotive field."

As an example, the professor put the three ton giant through a few paces. He geared it to solve a problem known as Vander Pol's equation, of use in radio engineering.

This equation, Fawcett pointed out, can be solved only with the greatest difficulty by mathematicians, with a large margin for error. To the "mechanical brains," it was child's play. In jig-time the machine, using only a small part of its involved workings had the answer—and with no mistakes.

The machine is approximately 28 feet long, six feet wide and three and one-half feet high. The first one of its kind was constructed at the Massachusetts Institute of Technology by Dr. Vannevar Bush, but it has only four gears, in contrast to the ten on the one in Philadelphia, and the gears gauge its range.

The university plans to place the machine at the disposal of American industry.

### Japan's Trade With Canada

#### Is To Be Regulated By Committee Of Experts

The official trade council of Japan has appointed a committee to regulate trade with Canada. In this connection it was said last year Japan purchased from Canada \$15,400,000 in goods while Canada purchased Japanese merchandise valued at \$2,240,000.

The trade council, consisting of experts of the ministries of finance, foreign affairs and commerce, decided to apply a system of control over imports and also to introduce safeguarding measures against countries which impose severe restrictions against Japanese imports. These take the form of increased tariff or restrictions, even prohibition of imports.

### Letter From West Africa.

JEBBA, NIGERIA  
WEST AFRICA  
May 2nd, 1935.

Dear Readers of Didsbury Pioneer:

It is about three months since I arrived back in Jebba, and there are a large number of friends that I wish to write to, so will take advantage of your weekly paper, and will you please take this as a message direct from me to you.

I think of you every time I go into the store-room and look in the provision cupboard. There, on one shelf, is the fruit that Mrs. (Dr.) Clarke gathered together for me from many of the Didsbury women. Just this morning I found the tears had started to my eyes as I read over again the messages of love that were on the jars. How very kind of you all to thus remember me. Every jar came through that long journey without a break. I was so thankful, one's heart almost stands still as you stand on deck and watch how roughly the baggage is handled. Still, all those jars of jam, jelly, pickles and fruit came safely to the Jebba store-room.

At lunch-time the table was spread with that lovely luncheon linen set given to me by the members of the W.C.T.U. I see you all gathered for a monthly meeting and am loving you and praying for you. Thank you again for this very nice gift.

Opposite me on the wall are two calendars, one is H. W. Chambers, the other, "Rags On Guard" (Mr. McFarquhar's calendar), and whenever I look in our bungalow of Mission Hill I am reminded of Didsbury friends.

Jebba is very pretty now. We have had several good rains. I wish you, each one, could enjoy the view I have from our front verandah, overlooking the great flat Niger River. It is over a mile wide here and has several large islands with great yellow sandbanks. The water is a pretty blue-grey, and the banks are such a variety of green trees, big and little, with here and there a few palm trees.

Between us and the river is the Nigerian Railway and Jebba Station. Along the platform is a row of flamboyant trees that are so gay with their huge red flowers.

Down to my right, on the Mission Compound, there is a new three-cornered school being built. At present we have seven native teachers in our day school. One-hundred-and-ninety-eight were in Sunday School last Sunday and nearly 400 in church service.

This morning I had three patients in Rose Rock Hospital, who were all cut by a thief in one of the Jebba houses last night. He got away with a lot of cloth.

The Didsbury Pioneer is a very welcome visitor twice each month, when the English mail comes. Next to the letters it is eagerly read. We are very interested in it and again wish to say "Thank You" to all who so kindly helped me with my preparations and packing.

We expect Miss Finlay to arrive next week. She will have a very warm welcome.

YOUR MISSIONARY FRIEND,  
FLORENCE FINLAY.

## SOFTBALL.

### Didsbury 4 Bennett 0

In one of the best softball games ever seen on the local diamond Didsbury defeated Bennett 4 to 0 on Monday night when the 2-hit pitching of young Roman Holub and the brilliant fielding of Jay Tuggle proved too great a combination for the visitors to beat. Holub struck out ten batters, allowed Bob Gebert a single in the third frame and Carl Gebert a single in the seventh.

Johnnie Hergert also pitched a nice game, allowing Didsbury five hits in the first three innings and then holding the local sluggers hitless for the remainder of the game. The team from the north played nice ball and served notice that they will be plenty hard to beat before the season is long underway.

Didsbury: L. Berscht c; Moransch 1b; Tuggle lf; Brusso cf; Evans 3b; R. Gulliver, rf; C. Geiger ss; H. Gulliver 2b; Holub p.

Bennett: E. Moritz 1b; Hammer lf; R. Moritz cf; Hergert p; Johnson 3b; C. Gebert ss; Love 2b; Steves c; B. Gebert rf.

Didsbury: 301,000,00X 4 5 1  
Bennett: 000,000,000 0 2 1

Umpire: Wyman

### Westcott Notes.

The May meeting of the Westcott Women's Institute was held at the home of Mrs. Harry Levagood on Thursday last, with sixteen members and three visitors present. Roll-call was answered to with a current event.

It was decided to hold a short course on Home Management at the Westcott United Church on June 4.

The date for the postponed picnic was set for Saturday, June 8 at the Jacobsen picnic grounds.

Mrs. Roland Webster gave an excellent report on the W. I. convention at Edmonton.

At the entertainment period a recitation was given by Margaret Robertson, a song by Rodney Webster and a recitation from Donald Robertson.

In the jelly-roll contest Mrs. MacDonald acted as judge, assisted by Mrs. P. Worthington. Prizes went to Mrs. J. Hughes, 1st, and Mrs. M. Jacobsen, 2nd.

The June meeting will be at the home of Mrs. Harry Steckley on Thursday the 27th.

### Things To Remember

St. Cyprian's Women's Auxiliary will hold Afternoon Tea, Sale of Homecooking and Supper in the Leuzler Block, Saturday, June 22 at 3 p.m., supper 5:30. During the afternoon the quilt will be raffled off.

## Too Much Wealth in the hands of Too Few People!

In the countryside, in streets of villages, towns and cities; in homes, in market places; from pulpits and public platforms; from men in many walks of life, you hear the same pronouncement—"Too much wealth in the hands of too few people."

WHO can rectify such an unsatisfactory state of affairs? —In many cases the PEOPLE themselves have the remedy.

In the grain business the GRAIN GROWERS have the remedy in their Co-operative Marketing organization. All they need to do is to give their patronage.

Co-operative Organization is the most effective means of preventing accumulation of great fortunes in the hands of a few people.

### Alberta News Items.

#### Oil Production

Total production of petroleum for  
the first four months of 1935 in Al-  
berta has been 417,109 barrels,  
compared with 442,684 barrels for  
the same period of 1934.

#### May Use Airplane.

Possibility of the use of airplanes  
for scattering of poison bait for  
grasshoppers is being investigated  
by Hon. F. S. Grisdale, minister of  
agriculture. Hoppers are now begin-  
ning to hatch, and farmers are  
urged to be on the lookout for them  
and report to their nearest author-  
ity at the earliest possible moment.

#### National Park Figures.

Over 255,000 visitors registered  
at Alberta's national parks in 1934,  
an increase of 20,000 over 1933.  
Banff led all parks with 142,000.  
Elk Island, near Edmonton, had  
51,700, Jasper had over 10,000,  
while Waterton Lakes, in the south-  
western part of the province, had  
36,700, Buffalo Park at Wain-  
wright, had 12,900.

#### Old Age Pensions.

Old age pensions were paid to  
a total of 6,579 persons in Alberta  
during 1934.

#### Reorganize Dept. of Agriculture.

Complete reorganization of the  
provincial agricultural department,  
which has been under way for some  
time, was announced on Wednesday  
by Hon. F. S. Grisdale, minister in  
charge.

By this reorganization there has  
been effected a reduction in the in-  
terior staff at headquarters in Ed-  
monton, to provide for decentraliza-  
tion and enlargement of outside ser-  
vice, with closer contact with the  
people on the land.

J. F. Andrew, assistant deputy  
minister, in addition to his former  
duties, will take over supervision of  
farmers' meetings, boys' and girls'  
club work, and school fairs, former-  
ly supervised by George Black and  
he will also have charge of the ac-  
tivities under the new Dominion  
Government policy of assisting the  
junior work at A and B class fairs.  
He will also have charge of the  
work of co-ordinating field days  
held under the auspices of the var-  
ious provincial interests.

S. G. Carlyle, livestock commis-  
sioner, has assumed the additional  
duties of supervisor of district ag-  
riculturalists and remains as fairs  
superintendent. E. H. Buckingham,  
who has been assistant field crops  
commissioner, in addition to his  
other duties, will act as supervisor  
of junior grain clubs and will en-  
gage in special work for encourag-  
ing production of forage crops.  
School fair work will now be large-  
ly in the hands of district agricul-  
turalists and the staffs of the two  
agricultural schools.

#### Tourist Enquiries Heavy.

Hundreds of enquiries from pros-  
pective tourists are now being han-  
dled at the provincial publicity  
office, a new all-time record being  
established in this connection. The  
huge increase comes largely as a  
result of the organized effort put  
forth in the past two seasons, chief-  
ly through the new Canadian Travel  
Bureau at Ottawa.

#### Annual Women's Week.

The Annual Women's Week will  
be held this summer as usual at the  
Schools of Agriculture, that at Olds  
being from July 15-19, and at Ver-  
milion from August 5-9.

### Obituary.

Mrs. Kaiia Olsen passed away at  
the Didsbury Hospital on May 31,  
1935.

Funeral services were held in the  
M.B.C. Church on Saturday, June  
1st at 2:30 p.m. Rev. F. Vincett  
conducted the service. Interment  
in Didsbury Cemetery

Survived by two brothers she also  
leaves to mourn her loss, 2 sons and  
1 daughter. Her husband prede-  
ceased her while yet residing in  
Norway.

### First Baseball Game ☐ of the Season

In the first baseball game of the  
season Olds defeated Dinsbury 3-1  
on Tuesday night in a game that  
was halted by rain after five in-  
nings had been played.

Sorensen in the box for the visi-  
tors had the best of the argument  
all the way. He had a nice as-  
sortment of speed and curves; fine  
control and gave a nice display of  
pitching.

Woodlock started for Didsbury  
but after three innings gave way to  
Geo. Geiger. Both pitchers did  
well to limit the Olds sluggers to  
three runs.

Olds: Holmes cf, Black c, Sher-  
riff, H. Gooder ss, Spotswood 3b,  
Sorenson p, Jevess lf, Dick 1b.

Didsbury: G. Geiger, Woodlock,  
Hardy, C. Geiger, Evans, Pearson,  
Buhr, R. Gooder, Fox.

### WEEKLY SERMONETTE

There is no such thing as failure  
except to those who accept and  
believe in failure. "Failure!"  
There is no such word in all the  
bright lexicon of speech, unless you  
yourself have written it there.

### WORLD HAPPENINGS BRIEFLY TOLD

Immediate construction of 500 new aeroplanes for military purposes will be undertaken by Great Britain, it has been authoritatively learned.

Mrs. Amy Mollison, premier woman flyer, cracked up her new plane, the first time she flew it at Croydon airfield. She escaped with a severe shaking-up.

Pilot Rosterguyeff and Student Pilot Baibuf remained in the air in a glider for 26 hours, 29 minutes at Koktabel, Crimea, and claimed a world's record.

Five men and a boy were seriously injured when a bomb was thrown in a crowd witnessing an Indian wedding procession at Calcutta. No arrests were made.

Women of the village of Broderick, Sask., "which has had no crop for several years," held a silver collection tea and netted \$19.25 to swell the King George V. silver jubilee cancer fund.

Notification that 10,000 tons of steel rails had been ordered from the Sydney plant of the Dominion Steel and Coal Corporation by the South African government was received recently.

Sir Malcolm Campbell, who can go almost as fast as he wishes at Daytona Beach, Fla., was fined \$1 in police court for exceeding England's recently-instituted 30-miles-an-hour speed limit in built-up areas.

Stamps issued for the diamond jubilee of Queen Victoria in 1897 are still in circulation. Prince Albert post office authorities report a letter with the 38-year-old stamp passed through the mails, mailed from someone in the district.

### Workers Donate 'Planes

Nine Have Been Added To China's National Air Force

Nine new airplanes, eight of which were donated by employees of government-owned railways in China, and one of the Overseas Chinese in Java, have been officially added to China's national air force. The eight railway planes cost \$830,000 and the one from Java \$130,000. More than 1,000 government officials and National Party leaders and over 10,000 spectators were present at the Old Ming Palace Airfield in Nanking when Wang Ching-wei, president of the Executive Yuan, accepted the planes for China. He spoke of the importance of the development of aviation as a step toward national consolidation in China. After the planes had been christened and the National and Party flags removed from the machines Chinese aviators gave a formation and stunt flying exhibition.

Iron wire has a tensile strength of 90,000 pounds per square inch; that of silk 64,000, says a writer.

### Little Journeys In Science

#### COBALT AND NICKEL

(By Gordon H. Guest, M.A.)

Cobalt and nickel are two metals which play an important role in modern civilization. They are usually found together in ores which contain iron, silver, and copper, in combination with arsenic and sulphur. The world's chief deposits of cobalt are located at Cobalt, (Ontario) and in the Belgian Congo, while the chief mines of nickel are at Sudbury (Ontario). The mines at Cobalt are also rich in silver.

Both these metals are silvery in appearance and take a high polish. They are slightly heavier than iron, and melt at a lower temperature. Unlike iron, these metals do not rust. Sheet nickel is used in the production of all forms of dairy equipment, and nickel powder is used in many chemical industries.

The chief uses of both nickel and cobalt are as alloy metals. When alloyed with iron, copper, chromium, silver, or with combinations of these, they give alloys of a very wide range of properties and uses.

Nickel steel is very hard and tough and is used for structural purposes and to make armor plate. Nickel-chromium steel is still harder and is used for railway switch-points and crossings. An alloy of nickel and iron known as permalloy made possible an increase in cable communication from 800 to 1,500 signals per minute.

Monel metal (67 per cent. nickel, 28 per cent. copper, 5 per cent. iron or manganese) and other alloys of similar composition are tough, possess high tensile strength, and do not corrode easily. This type of alloy is used where pleasing appearance and resistance to mild corrosion are required, as in the construction of restaurant fixtures, washing machines, and soda fountains. Rifle bullets have about the same composition as Monel metal.

Other alloys of nickel are resistant to heat and electricity and are used in electric heaters and electrical instruments. Nichrome (trade name) is a good example of this type of nickel alloy. Invar (steel with 36 per cent. nickel) is an alloy which does not expand.

Metallic cobalt has no direct uses, but its alloys, which are similar to those of nickel, are of growing importance. The chief alloys are similar to stellite (trade name), a cobalt-chromium alloy with small amounts of tungsten or molybdenum. These alloys are very hard and are used for cutting tools, especially for lathe tools.

### GARDENING

Gordon L. Smith

#### Garden Soil And Care

An open position sloping towards the south or east and well drained loam makes the best garden. Of course it is impossible to secure these ideal conditions, and Canada is fortunate in possessing a climate which will produce good vegetables on almost any kind of soil. If possible an exposure towards the south or east should be arranged since the sun is supposed to be the best for encouraging growth. But with soil, any kind can be built up to meet the ideal of a loose loam. Sand is better than clay because the former is warmer and it also gives quicker returns from fertilizer. It should be made to retain moisture, and to do this plenty of humus, or rotted vegetable manure must be incorporated. Digging in straw manure, green crops of oats, clover or even weeds, will prove a wonderful help both to sandy and clay soils, especially after this additional material has rotted. If the clay is very heavy, and the garden area small, sand or ashes can be added. Drainage is essential. Well rotted barn yard manure is the best fertilizer, but of course is not always obtainable and it is sometimes objectionable. Commercial, chemical fertilizer will take its place.

Under perennial screens there are all sorts of shrubs grown for both foliage and flowers, ornamental trees and herbaceous perennials which will come up from the ground year after year. Where screening is wanted both winter as well as summer, evergreens should be chosen. Of the vines there are the Virginia Creepers, some of which will cling without support, Dutchman's Pipe, Boston Ivy, Trumpet Vine, Clematis and others.

New gardeners should guard against planting too deep. Very fine seed like that of the poppy and alyssum, for instance, is best mixed with a little dry sand and the mixture sown. With small seed merely pressing into finely prepared soil will be sufficient. The general rule is to sow to a depth of three times the diameter of the seed. This will mean pressing in most flowers and vegetable seeds, except things like Beans, Nasturtiums, Peas, Corn and Squash, which are large and should be covered about an inch and a half deep. Bulbs or corms, like the Dahlia, Gladiolus and potatoes may be put down quite a piece, from four inches to a foot.

### Soil Cultivation Methods

#### Alberta Government Will Encourage Efforts Along This Line

Whether it be welcome or not there is more legislation every year to control farming operations. Many of these measures have for their object the checking of animal diseases and noxious weeds. The Alberta government now aims to encourage such methods of soil cultivation as will control soil drifting and a bill sponsored by the Minister of Agriculture has been under consideration by the legislature. It is proposed to provide penalties on the owner or occupier of land who fails to follow the practice recommended. The legislation is expected to lay the groundwork for a rehabilitation scheme in which summerfallowing will play a prominent part. There are alternative methods offered such as summerfallowing and cropping the land in alternate strips not exceeding 20 rods in width approximately at right angles to the prevailing direction of wind liable to cause soil drifting. In the case of summerfallowing, there should be two strips of stubble or cropped land and two strips of summerfallow in each strip at least ten rods in width and parallel to the boundaries of the said property.

Another course is to seed upon the land a covering crop of grain sown not later than August 10, using for that purpose not less than 20 pounds of seed an acre on all the land which is under summerfallow.

In other cases it is advisable to maintain a strip of natural or planted tree growth at least three rods in width within 20 rods and parallel with each boundary of the property.

Another general recommendation is that where it is practicable to sow them, farmers should be encouraged to sow small seed plots of grasses or legumes on their farms. These could be sown in rows three feet apart on suitable farms, for the production of seed for the farmer's own use.

### Ban On War Materials

#### France Decides To Forbid Export Of Needed Metals To Germany

A French decision to forbid exports of bauxite, raw material from which aluminum is made, served to emphasize difficulties the Nazis are having in their efforts for military self-sufficiency.

Determined to bring Germany back to the level of Europe's great powers, Adolf Hitler's aggressive administration is finding the marshalling of war materials more troublesome than the mobilization of men.

France's ban on bauxite shipments newspapers and experts pointed out, must seriously hamper the self-sufficiency program since Germany, producing no bauxite herself, has been buying half her supply of that material from France.

A further difficulty, it was asserted, is that Germany has devised an elaborate scheme for substituting aluminum for hundreds of more expensive metals, all of which may go by the board unless other sources of supply can be found.

### Masks Are Costly

Masks for women, made in their own likeness, have become a craze among smart women on the Riviera in France. It is claimed that they enable their wearers to rest muscles wearied by a constant "fashionable" smile. Each costs a small fortune.

### YOUR HANDWRITING REVEALS YOUR CHARACTER!

By LAWRENCE HIBBERT  
(Grapho-Analyst)

(All Rights Reserved)

It would not be out of place for me to say a few words here about vocation and the various desires that people have for getting somewhere in the world. Many of my correspondents speak of "dabbling" in certain things. Some "dabble" in writing, others in something else.

You will never get anywhere if you "dabble". No matter in what direction your desires and ambitions are directed, you need to work hard and to devote concentrated and industrious effort towards its attainment. If you want to write stories, for instance, then get down to it, and write—and keep on writing. Remember Robert Bruce and the spiders. If at first your efforts don't meet with overwhelming success, never mind. Do not jump to the conclusion that you are aiming in the wrong direction. Redouble your efforts. That is the way to succeed. It may sound trite for me to write in this way, but believe me, the real undying truths of the world can be summed up in a few prosaic expressions—and my mailbag shows me the need for a little timely advice of this kind.

C.G.: You are too much of a procrastinator at present ever to get very far ahead with your ambitions. You need to cultivate more persistence, definiteness and will-power. Never mind dreaming about the future, but set to work to make your own future. In other words, your future is in your own hands. Success does not come to the average person like manna falling from above. It is usually the result of well-directed effort towards a clearly defined goal. Make up your mind definitely what you want to do most, and then get busy learning all you can about it, and keep on trying. You can succeed if you want to badly enough, and are prepared to pay the price in self-sacrifice and hard work.

Mrs. A: I cannot see much real happiness for you, with your present husband. Not only is he a confirmed drunkard, as you state, but he has a very violent temper, and absolutely lacks self-control. His brutality to you, and to your children illustrates this, even if his handwriting were not so definite on the point. And his unwillingness to stop going out with other women shows that he is set on having his own way.

There is only one thing for you to do, and that is to carry on with the plans you speak of in your letter. A separation will be best for all of you, and will at least give your children a real chance in life—a chance which they do not appear to have under present circumstances. You are fortunate in being sufficiently self-supporting to be able to gain your freedom. I do wish you more happiness in the future.

Would you like to know what your handwriting shows about your character? And perhaps you have some friends about whom you would like to know the truth? Send specimens of the handwriting you want analysed, stating birthdate in each case. Send 10c for each specimen, and enclose with a 3c stamped addressed envelope, to: Lawrence Hibbert, care of Winnipeg Newspaper Union, 175 McDermott Avenue, Winnipeg, Man. All letters will be confidential and replies will be mailed as quickly as possible. Please allow about two weeks for your reply to reach you, owing to the volume of mail that is coming in.

### Promotes Growth

A Russian surgeon believes he has discovered the secret of promoting growth in physically stunted humans. He transplanted the thyroid gland of a 13-year-old child who had just died onto a stunted child of 15. The latter, it was said, shortly resumed his growth and in a few months was developing normally.

### Old Smokes at Home!

"All up and down the whole plantation, gladly they roam"—choosing the young, sun-ripened leaves for Ogden's Cigarette Tobacco. Leaves that cannot pass the Ogden's quality test are kept "far, far away" from this mellow, satisfying cigarette tobacco. That's why we can promise that Ogden's will satisfy you—particularly when rolled with "Chantecler" or "Vogue" Cigarette Papers.

### Trans-Atlantic Air Service

Experimental Flights May Be Carried Out This Summer

Provided arrangements can be made for establishment of terminal aerodromes at Galway, Ireland, and in Newfoundland, experimental flights across the Atlantic will be carried out within the next six months in connection with the proposed Ireland-to-Newfoundland airmail and passenger service. C. H. Glendinning said large United States-built seaplanes would be used.

One of the great seaplanes under consideration is a Glenn Martin monoplane which would carry 46 passengers, a crew of six, and a load of airmail across the 1,500 nautical miles separating Galway from Notre Dame bay, Newfoundland, in eight hours, 35 minutes. Mr. Glendinning also said a smaller seaplane constructed by Igor Sikorsky might be used.

CHAPTER XVII.—Continued

"Dustin tells a different story," suggested Garcey. "There's the cattle rustled off the Hour-glass. Corse and Gray'll come across there. You better talk to your lawyer, too, Goddard, and get him to tell you what champerty is. It'll interest you in that false suit over Soda Springs. You're good for five years at least."

"You listen to me, Garcey. . . . If Sam Dustin says . . ."

But Garcey swept on:  
"The State isn't especially anxious to get you for rustlin'. That lies with Joe Carr. What I can do, Goddard, is to promise you immunity for all acts up till now provided you come across with a signed statement of all you know about old man Kane and this man Keene."

Spike breathed hard and considered the irons on his wrists. They were proof positive that Garcey meant business. They had the goods on Dustin. He had always warned Sam that he was biting off more than he could chew. It would not help Dustin in the slightest degree. They had enough on Dustin now to hang him. If they failed to hang him, they would "put him away" for years. In the office-safe there was enough to get away with; a trifle over seventeen thousand dollars, proceeds from the looted cattle from the Hour-glass that no one knew of but himself and Dustin. He studied the three men before him.

"If I make a statement will you promise me there'll be no publicity?" he quavered.

"Sure. That's all right. You'll be subpoenaed later probably as a witness," said Garcey. "All I'm tryin' to do is to save the County a long expensive suit. Your affidavit will show Dustin the sense in pleadin' guilty to second degree murder. That'll save his life. But he'll be locked up for

## WORRIED ABOUT YOUR HEALTH?

Let SASKASAL regain  
and maintain it

Nature gives to Canada in munificent abundance the natural Mineral Salts found in Little Manitou. These health-giving Salts are recovered and refined by expert Chemists in the form of SASKASAL SALTS.

Thus SASKASAL in turn gives to Canadians in simple form—easy and pleasant to take—the cleansing, purifying, revivifying product of Nature itself. That is the simple story of SASKASAL Salts, so valuable to you in regaining your lost health and maintaining it in joyous vigour. If you suffer from Constipation, Indigestion, Rheumatism, Kidney or Liver troubles—take SASKASAL Salts. At all Drug Stores—69c.

life. . . . That'll mean really about twenty years."

"I . . . I . . . My God . . . I'll give you my affidavit to all facts I know in exchange for your written promise of immunity."

"Get paper and ink. I'll take that affidavit right now. Jameson here is a Notary Public," said Garcey.

It took nearly an hour to get that affidavit for Goddard knew much more than he realized. Details were set down, fragments of talk that he had from time to time with Dustin. His threats against Edith and his scheme to hold up Joe Carr at the last all came out. When Garcey had that paper signed and sworn to and witnessed by Stone and himself he turned to Goddard.

"I suppose Dustin'll be admitted to heavy bail in this case. His lawyer'll look out for that. But if he gets out, I'd hate to be in your shoes when he learns of this statement."

Spike Goddard was of the same opinion and the moment Garcey's car shot around a turn in the Seco trail he was the busiest man in Crevasse County. In ten minutes he had the wall-safe opened. In ten more he had packed a valise that he flung into the back seat of the battered little ranch-car. The fat old cook at the Broken Spur was the last man to see him as he stepped on the gas and hurled that car along the open trail to the South.

Armed with that affidavit Garcey and Stone headed straight for the office of the County Attorney where they were met by Masters, the ferret-faced little attorney, who had protected the Broken Spur for many years. Masters scanned the paper and the other proofs that Lorton frankly laid before him.

"Oh, you'll get an indictment of course," said Masters. "And you've got enough to put up a fight. I can't say off-hand how we'll plead. Of course in this case of young Keene; I understand he died. . . ."

"Well he didn't," snapped Stone. "Listen here. I had to get time to investigate the Kane business. I wanted time to look around so I got Epps to give out a report that Keene was dead. I figured that'd make Dustin show his hand and it did. He tried at once to make Edith Carr marry him. He said he'd save her father if she'd marry him. He was perfectly willing to sacrifice Peyotl to get the girl. It was quite an accident that we learned that Dustin killed Kane."

"That affidavit would send Dustin up for twenty years even if he hadn't murdered old Kane," said Lorton. "This clears old Carr of course. We might get him over here, Sheriff."

While Carr was sent for, Masters interviewed his client and told him of the affidavit that Goddard had given and for five full minutes Dustin was speechless. Then:

"The . . ." He ripped out a vitriolic name. "He's sent me up for life at least to save his own dirty hide. But he can't get away with it. You tell Garcey that that little crook has jumped the state for the Border. He's certainly taken along with him seventeen thousand dollars that we had in the wall-safe at the Broken Spur."

In ten minutes Sheriff Garcey had the wires red-hot and six hours later action was had when Layton of the Border Patrol wired in that they had picked up Goddard at Willow Crossing on the Big River just as he was preparing to cross into Old Mexico . . . and safety. Garcey sought Stone and told him:

"It puts a different complexion on Goddard's status," he said. "I promised him immunity but he did this afterwards. This'll jail him along with Dustin. It ought to help clear up the mess of the Hour-glass too. Let's get back and see old Joe Carr when he learns all that has happened."

Carr, brought from Garcey's house, listened dazedly to the complicated tale. When silence came he leaned forward and scanned Stone closely.

"I don't seem to get this quite straight," he said. "What I want to know . . . How is young Keene? Of course I didn't shoot him but I can't explain what took place. I'd like to call up Edith on the phone and tell her though. She'll want to know. . . ."

"You might tell her," said Stone. "That Gerald Keene will drive out to

the Hour-glass with you in a little while. . . ."

"How do you know he will?" snapped Carr. "Can't he answer for himself? For God's sake get him from Doc Epps if he's not seriously hurt."

"That's all right," said Stone easily. "I happen to be able to speak for him because . . . I AM GERALD KEENE."

A bomb-shell falling between them would not have caused more astonishment. When it partially subsided Stone explained.

"Burwell of the Cato bank told me that Dustin and Goddard had systematically looted the Hour-glass. I knew of course that as Mr. Carr's partner, I'd never get a hair of evidence so I took Duro Stone's name. Duro was my foreman on a little ranch I own up in the Wind River basin. I came on down here with a letter from Gerald Keene to Mr. Carr and I got a job as Duro Stone. I saw almost at once how things were going. Mr. Carr was pretty well crippled up and Dustin and Goddard were on the prod. Then I found out about the cattle bein' swiped by the men from the Broken Spur. . . . I couldn't do much because it would be only the evidence of one man and he a stranger. Then I found out about the gold-mine and after that the other things came to light. Of course I knew at once that the scoundrel wanted to marry Edith and was trying to force her consent. When Keene . . . I mean the real Stone . . . was shot I had to persuade Epps to give out word of his death. I figured that would make Dustin show his hand and it did. I had to swear out a warrant for Dustin's arrest on the narcotic charge because I needed three days to go up to investigate Peyotl Gregg's story about Kane's death and I didn't want Dustin to know about it. That's why I had Garcey pinch him. I couldn't have concealed my identity very long though. Crewe spotted me. You would have too, Mr. Carr, if you hadn't been so crippled that you couldn't get around."

"Does Edith know?" asked Joe Carr.

Stone shook his head. "By the way," he said, "we'd better send for the real Duro Stone. He's gettin' darned tired of bein' dead."

In the riotous hour that followed, old Joe Carr's eyes seldom left his recent employee, Duro Stone. He followed every little movement with an interest that was pathetic.

"Now that I know who you are, I can see Peter Vinton in your every move," he said. "I want to see Edith's face when she's told."

"So do I. Let's get out to the Hour-glass right away," said the new Gerald Keene ingenuously.

Edith, warned by the telephone, was standing on the porch. The sun, shining full in her eyes, filled them with a curious light and made a bright nimbus about her head as she stretched out a hand to the new Gerald Keene.

"THE RHYMING  
OPTIMIST

By Aline Michaelis

MY JOY

Joy is not an ordered thing,  
Portioned day by day,  
This much happiness for Spring,  
That, when storms will stray.

Rather, it is like a bird  
Singing, who knows why?  
By what winds of fancy stirred  
Into melody?

Joy is careless where it dwells,  
How it comes or goes;  
Who can say what charm impels  
Song that heavenward flows?

I had thought my joy was spent,  
Fluttered from my hand;  
I had sought to find content  
In a silent land.

Then upon a golden day,  
Fairest, loveliest,  
Joy rose, like a lark in May,  
Singing in my breast!

Jamaica was discovered by Columbus during his second voyage in May, 1494, and was taken possession of by the Spaniards in 1509.

Of all foods, milk has the highest food value. 2097

**Lydia E. Pinkham's  
VEGETABLE COMPOUND**

"I hardly know how to greet you," she said half-shyly. "I was prepared to give Duro Stone a warm welcome. . . . Duro Stone who saved my father and me and the ranch but now . . ."

"But now . . ." He took the word . . . "Let 'em all go in the house, Edith. I've got something to tell you. . . ."

They watched the others go inside the house and they stood watching the sun set behind the last blue line of the foot-hills. A golden fog seemed to fill the air with an aureate dust and afar a coyote set up his shrill weird yelling. Stone . . . Duro Stone . . . now Gerald Keene, took both her hands in his and drew her to him. She came unresistingly and was drawn into his arms.

"You . . . needn't . . . try . . . any longer. . . ." Her voice was muffled as her face pressed to his. . . . "No longer. . . ."

"No longer what, Honey?"

"To pose as an amateur," she laughed. Then she backed away from him and looked at him as Frank Crewe came out, took one hasty glance and fled inside the house. The next moment darkness shut down on them and the desert night began.

THE END.

## Little Helps For This Week

The Lord shall preserve thee from all evil, He shall preserve thy soul. Psalm 121:7.

Under Thy wings my God I rest,  
Under Thy shadow safely lie;  
By Thy own strength in peace possessed  
While dreaded evils pass me by.

A heart rejoicing in God delights in all His will, and is surely provided with the most firm joy in all estates; for if nothing can come to pass beside or against His will, than that soul cannot be vexed which delights in Him, and hath no will but his, not only when He shines bright on them but when they are clouded. That flower which follows the sun doth so even on cloudy days. When the sun does not shine it follows the hidden course and motion of it. So the soul that moves after God keeps that course even when he hides His face, and is content to do His will in all conditions.

## Observing Jubilee Year

**Tribe In India Promises Not To Steal Cattle**

Unless there are backsliders, there will be no cattle stealing by one of Punjab's most primitive tribes in the next 12 months. That will be the tribe's gesture honoring King George's silver jubilee.

Responding to the appeal of British Commissioner C. C. Garbett, 100 of the tribe's leaders solemnly agreed not to steal any cattle during jubilee year. The tribe is notorious throughout the Punjab for its cattle rustling.

## Changes Their Color

**Zoologist Finds X-Ray Has Queer Effect On Mice**

Colored mice are now available in St. Louis, in all colors except green, bright blue and orange, and prohibition repeal has nothing to do with it. It's science. This was announced by Dr. George D. Snell, assistant professor of zoology at Washington University, who has been studying the effects of X-ray in the heredity of mice. A combination of dieting and exposure to the roentgen rays produced the startling colorations and in some instances strange malformations and abnormalities, Dr. Snell reported.

The total quantity of flaxseed in Canada on March 1, 1935, was 580,839 bushels, 408,853 bushels being in elevators; 166,300 bushels on farms, and 5,686 bushels in transit. On the corresponding date in 1934, the supply on hand was 663,668 bushels.

Archaeologists digging at an old Alaskan village have found for the first time wooden canoes made by Eskimos.

## Signs Declaration

MRS. ETHEL DUFF

To benefit others Mrs. Duff, 135 Wellington Street E., Chatham, Ontario, swears to the facts before a notary of how Fruit-a-tives rid her of sick-headaches and stomach trouble in less than a month. Mrs. Duff generously made her statement in this fashion so everyone can be sure of its truth. She states,—"I was bothered with stomach trouble which brought on sick-headaches. Nothing I took did any good. Then I started taking Fruit-a-tives. In less than a month my stomach trouble had gone and I had no more headaches. Fruit-a-tives also helped my husband who suffered from stomach trouble too."

Copy of Mrs. Duff's complete sworn statement will be sent on request. Write Fruitatives Limited, Ottawa, Canada. **FRUIT-A-TIVES—25c and 50c EVERYWHERE**

### In Memoriam

FULKERTH—In loving memory  
of our darling, "Bennie" Fulkert,  
who died June 9th, 1934:

We loved him, yes, no tongue can  
tell

How much we loved him, and  
how well.

Jesus loved him too and thought  
it best

To take him to His home to rest.

—Ever remembered by Mr. and  
Mrs. Russell Fulkert, Grandma,  
Brother and Sister.

### Melvin Notes

Don't forget the dance at Melvin  
Friday, June 14.

Mr. Lloyd Chandler was a visitor  
to Calgary on Tuesday.

Mr. August Krebs is the proud  
possessor of a new Ford V8.

Melvin School was well represent-  
ed at the jubilee celebration in town  
Monday.

Roy McNaughton attended the  
U.F.A. convention at Acme on Tues-  
day.

Melvin Softball Team played Olds  
Tuesday evening and emerged as  
winners by a score of 10-4.

Mr. and Mrs. August Krebs and  
Lester were Sunday visitors with  
Mr. and Mrs. Roy Shaw.

### Burnside Notes.

Lone Pine Baseball Team are put-  
ting on a dance this Friday evening  
June 7 in the Hall. There will be a  
ball game between Sunnyslope and  
Lone Pine at 6.30 the same evening.

The "Evanova Chautauqua Com-  
pany" will present an evening's  
entertainment in the Lone Pine Hall  
on Wednesday, June 12 at 8.30.  
Adults 35c and children 10c. The  
company comes here well recom-  
mended and under the auspices of  
Burnside U.F.A.

Lone Pine W.I. will meet on  
Thursday afternoon, June 13, at the  
home of Mrs. H. B. Richardson.

Mr. Pat Spraggs, son of Mr.  
Albert Spraggs of this district, was  
quietly married on May 12 to Miss  
Celestine Smith, of Hythe. The  
young couple will reside on the  
groom's farm at Hythe, in the Peace  
River district. We extend congratu-  
lations and best wishes.

Mr. and Mrs. N. Eckel were  
business visitors in Olds on Mon-  
day.

Mrs. Doll spent a few days last  
week visiting Mrs. Wm. Lyons.

Mr. Earl Dedels spent Friday eve-  
ning with Mr. and Mrs. B. Woods.

Messrs. Albert Spraggs and Sam  
McAllister were visitors on Sunday  
at Noah Eckel's.

Mr. and Mrs. John Metz of Water-  
loo, Ont. visited the first of the week  
with the former's brother, Mr. Geo.  
Metz.

Miss Inga Sick, Jack Clark and  
Idris Jenkins have finished their  
Normal School course in Calgary  
and returned to their homes here.

Lone Pine Baseball Team played  
Sunnyslope on Monday evening, the  
score being 6-6 in the seventh, when  
the game was called on account of  
darkness.

### Lords Turn Down Secession Scheme

Western Australia's Demands  
Can Be Granted Only  
By Commonwealth.

The question of secession of a  
state or province of a British do-  
minion is first of all a question for  
the federal government of that do-  
minion to pass upon, it was ruled  
last week in London by the joint  
select committee of the house of  
lords and the house of commons in  
the case of the state of Western  
Australia, seeking secession from  
the Australian commonwealth and  
independent status as a dominion  
within the British Commonwealth.

The decision was that the British  
parliament was constitutionally in-  
competent to take the legislative  
action requested, except upon a  
definite request of the common-  
wealth government.

The state's petition to His Maj-  
esty and the parliament of the  
United Kingdom was presented last  
December, after long agitation with-  
in Western Australia, which com-  
plained of economic disadvantage  
under the federal government. Pre-  
viously the state voted 2 to 1 in  
plebiscite in favor of secession from  
the commonwealth, which opposed  
the present petition.

### LOCAL & GENERAL

Mr. and Mrs. W. Stock of Olds  
visited their daughter, Mrs. Boor-  
man and family, this week.

Mr. E. Speers of Lethbridge un-  
loaded a car of effects Wednesday  
and will move to Sundre.

Mrs. Annie Shantz left last week  
for a trip to her old home at Kitch-  
ener.

Miss Joyce Moyle left on Friday  
for Montreal and Toronto. After  
visiting her sister, Miss W. Moyle  
in Toronto she will take a position.

The final meeting of St. Cyprian's  
W.A. before the summer recess will  
be held at the home of the president,  
Mrs. E. K. Pratt, Friday, June 14.

The Didsbury Albright Brother-  
hood and E.L.C.E. will present  
their play, "The Rich Young Man,"  
at Carstairs on Monday, June 10.

Miss Irene Kercher who has been  
visiting her parents for a couple of  
weeks returned to Calgary on Sat-  
urday.

Dr. Liesemer was attending the  
annual convention of the Western  
Canada Dental Society held at Cal-  
gary this week.

A Social Credit meeting will be  
held at the Community Hall on  
Monday, June 10th. Regular busi-  
ness.

Mrs. McGhee, Mrs. J. Topley,  
Mrs. McInnis and Miss Audrey  
are attending the Grand Chapter of  
the Eastern Star which is being  
held at Edmonton this week.

The next Softball League game at  
Didsbury will be this Friday eve-  
ning at 7 p.m. when Olds and  
Didsbury will clash. Be on hand  
and give the boys a boost.

The Hospital Aid will meet at  
the home of Mrs. Norman Clarke  
on Tuesday afternoon, June 11 at 3.  
All members are requested to attend.  
Town members please meet at the  
United Church at 2.30.

P. H. McCann had the misfor-  
tune to have his foot injured while  
working on the Olds-Sundre road  
last Saturday. He will be laid-up  
for several weeks and is staying  
with his daughter Mrs. Geo. Julien.

Ed and Gordon Ford along with  
their guide, Willard Axtell, took a  
fishing trip on Monday. They  
wasted the morning hunting places  
but got a good catch in the Clear-  
water in the afternoon.

The golf course is reported to be  
in a better condition than it has  
been for some years. The members  
are getting some good golfing and  
with an increased membership the  
club could have a very successful  
season.

The W.C.T.U. will hold their  
regular meeting at the home of  
Miss Z. Cressman on Thursday,  
June 13 at 3 p.m. Mrs. Hallman  
will give a paper on "Gaul & Prison  
Reform." All ladies are cordially  
invited to attend.

A Social Credit Picnic will be  
held at the Little Red Deer on the  
township line west of Westcott on  
June 12. Two prospective candi-  
dates will address the meeting.  
Everybody invited to attend. Please  
bring baskets.

Mrs. Robert Sutherland, nee  
Lucy Wilson, of Drumheller, visit-  
ed with relatives and friends over  
the weekend while her husband  
with Mr. and Mrs. Anderson and  
daughter Margaret took in the golf  
tournament at Innisfail. Both Mr.  
Sutherland and Mr. Anderson won  
prizes in the finals.

Bert Fisher and Jack Topley  
returned on Saturday from their  
week's trip hunting gold. They  
brought back a 6lb. trout measuring  
26 inches and Bert says they had  
two good meals of fish each day.  
They claim there was too much ice  
in the creeks in the high places to  
hunt for gold.

"The people of Western Australia  
will fight on until they receive jus-  
tice from the commonwealth govern-  
ment," declared Premier Philip Col-  
lier, when he learned of verdict.

"The present position is intoler-  
able," said the premier "Unless  
there are great changes, the federa-  
tion cannot last another 10 years."
